Canada's Needs

No. 5—Cheaper Transportation

In preceding articles in this series Canada's need of a larger production of a domestic agricultural property, of world markets for its products, and of a greater employment of Canadian raw materials in home manufactures and domestic use has been pointed out and emphasized. As one means of bringing about the realization of all these improvements in our national life, possibly too great stress cannot be laid upon the question which turns the subject matter of this article, namely, cheaper transportation.

During the war years, and for a time following the Armistice, there were steep and rapid advances in rates charged by the railways of the country both for the carriage of passengers and freight. Rates went up by leaps and bounds until they far surpassed anything known previous to 1914. No doubt advances were inevitable and necessary under the unprecedented conditions created by the war and the financial and commercial upheavals following those years of destruction. But the cumulative effect has been to place such a heavy burden upon production and business as to constitute a handicap under which no industry can flourish.

The burden of excessively high transportation costs must now be removed as a first and necessary step to a resumption of that activity throughout the whole business world which is essential to a return of prosperity and plenty of employment for all.

While wartime high prices for labor and all commodities prevailed, business could carry the burden of high transportation charges. Two dollars a bushel wheat could bear a heavy freight rate and yet leave a profit to the farmer, but wheat which realizes a dollar a bushel or less cannot pay the same price as two dollars wheat and still leave a margin of profit to the grower. And what is true of wheat is equally true in the case of livestock and of all articles of commerce. Yet while the prices of all articles produced by the farmer have enormously decreased, there has been practically no decrease in the charges he has to pay to get his products to market, nor on the necessities of life for his family.

The result is that the prevailing high transportation charges are throttling business and ruining the producers of the country. Inevitably and ultimately the railways themselves are ruined. It is impossible to see how this can be avoided. It will be a disaster of the first magnitude. The decreased power of the people which will mean a smaller consumption of the products of the factories, and a general reduction in the business and traffic all round. If the people are not prosperous, the railways cannot be.

The recently adopted unanimous resolution by the Saskatchewan Legislature demanding a reduction in freight rates, and the similar resolutions which will be, by somewhat similar decisions by the Legislatures of Alberta and Manitoba; the demand voiced by the United Farmers of Manitoba and Alberta, which will be followed by Saskatchewan Grain Growers; the protests of leading newspapers in Toronto, Montreal and other large centres, and the emphatic declaration by Hon. R. E. Fin, solicitor for the Nova Scotia Government and the Halifax Board of Trade before the Dominion Railway Commission, that if the Maritime Provinces are to remain in the Canadian federation itself not weakened, they must have lower freight rates, all go to prove that cheaper transportation is the crying need of the Dominion at the present time, and a remedy provided without delay if widespread unrest and possible disaster is to be averted.

In urging the immediate reduction of freight rates, there is nothing an interest to the railways. Quite the reverse. Everybody appreciates the fact that the railways cannot continue to operate at a loss. It is in the interest of everybody that they should prove profitable and be maintained fully efficient, and that those who have invested their money and given their labour in such enterprises should be able to private individuals or the nation itself—be entitled to a just return.

If present conditions are not quickly remedied the railways will soon be numbered among the greatest losses of all. The railways will be far better off with an increased and increasing volume of business at lower rates, than a restricted and dwindling volume at exorbitant rates. Should traffic continue to decline, the railways must lose unless rates are still further reduced to cover such loss of traffic. Rates are now too high, and are, and ultimately are restrictive of business. There is a point where high rates operate to decrease rather than increase profits, and that point has already been reached. If indeed, it is time to use a reduction in freight rates, and the people are suffering in a demand that such reductions, and substantial ones at that, be ordered.

Shoes and Shoes

American Women Are No Longer Obligated to Go About on Stilts

Whether the money-making fever has been laid to rest, or whether it is not, the evidence of the sidewalks in that American women are no longer obliged to go about on stilts unless they want to. No one is compelled to buy the exorbitant cost of shoes, and no one is compelled to wear them.

The shoes are full of smartly cut, solid-looking shoes, fashioned somewhat on the lines of a human foot. And not least, the better shoes are no longer regarded as a disgraceful piece of jewelry. The walking shoe is once more a recognized institution and is unapproachable in its smartness.

As for the relation with the wacky French heel, it is still there for those who want it, although it has been forced to second place, and doubtless will soon be in the museum with the long-eared waist and the long skirt—from the New York Tribune.

CUTICURA

PREVENTS FALLING HAIR

If your scalp is irritated, and your hair dry and falling out in handfuls, try this treatment: Wash the scalp with Cuticura and follow with Cuticura Ointment and follow with Cuticura Shampoo of Cuticura Soap. Absolutely nothing better.

Write to: Cuticura, 140 N. 1st St., St. Paul, Minn., U.S.A. or to: Cuticura, 140 N. 1st St., St. Paul, Minn., U.S.A. or to: Cuticura, 140 N. 1st St., St. Paul, Minn., U.S.A.

Quick Growing Trees

Western Farmer Can Grow Wood for Fuel Within Six Years

Many of the species of trees which

grow on the prairies are very

rapid growers, for example, cotton

wood, willow, Russian poplar, and

Manitoba maple. It is safe to say

that wood of large enough fuel can

be grown from any of these trees

within six years. After that time a

planting of trees will increase in

productiveness year by year and will

prove one of the best investments on

the farm—Norman M. Ross, In-

OFFICES
OF
TOWN AND
COUNCIL

Local News.

Mrs Geo. Matten is at present nursing a family in Clive.

El. Eklund and R. M. L. left on Monday for their home in Orange, California.

Miss Nellie DaWalt resumed her duties in the Land Title Office, Edmonton, on Tuesday.

Miss Nellie James and Miss Emma Peterson were guests in Edmonton the week-end.

W. J. Milne, an old Ponokaite, is in our midst. Mr. Milne was our first photographer, and left here some fifteen years ago.

Mrs S. W. Clark, of Chesterfield left for the east last week where she will "make her home." Mrs. Clark has lived in the Chesterfield district for over twenty years, and has many friends who will wish her well in her new home.

Henry Oke, publisher of the Advance, Rimby, has disposed of his plant to Mrs. Simmons who has taken charge, and promises to give us a reliable paper every week. Mr. Oke is joining his family in B.C., where they have purchased a fruit farm.

J. H. Webster, of Creston, B.C., was in town last week, a guest of Mr. and Mrs. J. C. Bell. Mr. Webster is an old resident of Morningville, having carried on a hardware business there for a number of years. On account of indifferent health he moved to British Columbia with his family, and now owns a fruit farm in Creston. Mr. Webster called upon many old friends here during his short sojourn.

The members and friends of St. Mary's church held a most enjoyable social in the town hall Thursday evening. There was a large attendance, and a dainty lunch was served. Cards and dancing were enjoyed.

Ponoka band supplied the music at a skating carnival in Lacombe on Friday evening, held on behalf of the Church of England. Their efforts were much appreciated by a large crowd.

A most enjoyable dance was given at the hospital on Friday evening by Dr. Cook and staff. There was a large attendance from town and outside points. The music was the best, and at midnight a sumptuous lunch was served.

The Herald has received the following, with a request that it be published and answered:—"I have attended the U.F.A. Co-operative Society's annual meeting for the past two years, but unless I get some assurance that the time of the meeting will not be taken up almost entirely by one party yapping, I shall find it to my advantage to be absent next year. Now, Mr. Editor, you ought to be able to give some advice in this matter. What would you do to stop this internal yapping? There is one, and only one remedy for the honor and prestige of our species, put that man in petticoats!"

The Alberta Legislature opens today (Thursday).

Notwithstanding that there is no game, and therefore spectators are not obliged to pay to witness a hockey game, the sum taken at the last game was very satisfactory, and if the same patronage is forthcoming at other games, it will go far to finance the team throughout the season. Ponoka's citizens have always been noted for their generosity.

The Art Needlework Club gave an exceptionally fine entertainment in the Seaside club rooms on Monday evening. There was a very large attendance of invited guests, and with music, cards and dancing and a dainty lunch, everybody enjoyed themselves to the full. Only one regret, the society was for ladies only. A little more charity please!

CHURCH NEWS

BAPTIST

Sunday, February 5.—Concord Sunday School at 2 p.m.; public worship at 3 p.m.; Ponoka Sunday School 11 a.m.; evening worship at 7:30 p.m. Dr. McLaughlin will address the meetings. All cordially invited to these services.

The meeting for conference and prayer on Wednesday evening at 8. Meeting led by Mr. Goodman. Choir practice Friday evening at 8.

The Mission Circle will meet at the home of Mrs. F. Dickau on Thursday afternoon at 2 o'clock. We would be glad to see all members present and heartily invite all friends.

UNION

The pastor will preach at both services, 11 a.m. and 7:30 p.m. The sacrament of the Lord's Supper at the close of the evening service. A hearty invitation is given to all. Trail Rangers will meet in town hall on Thursday at 7:30.

The Ladies' Aid will meet in the church parlors on Friday at 2:30. All ladies welcome.

Rev. C. Bishop will preach at Sylvanville on Sunday at 3 o'clock. Look out for Father and Son service on Sunday, February 10.

Wanted, two Gentlemen to Board and share large warm room. Apply, Herald Office.

Good meals, clean comfortable rooms, and good service can be had at the Albert Hotel, under new management.

Mrs. J. B. Bratt, Prop.

Mrs. G. Doner Clark wishes to announce that she has opened a maternity home, and is prepared to receive applications for reservations. For references see Doctors Graham, Campbell and Gillespie. Terms moderate, but strictly cash.

Toronto, Jan. 31.—That the lash as well as imprisonment should be the penalty meted out to persons convicted of larceny was one of the recommendations made by the grand jury yesterday afternoon to Mr. Justice McNeill. Another recommendation was that revolvers and small arms be prohibited except for police and military purposes.

U.F.A. NOTES

PLAY AT ARBOR PARK

Friday evening a very successful entertainment was given at Arbor Park schoolhouse, when a play entitled "Too Much of a Good Thing" was given by a number of the young people of the district. Notwithstanding the stormy weather there was a good attendance, and everybody had an enjoyable time. The play was followed by musical numbers and a reading, and before the close the ladies of the U.F.A. sold numbers for a cross quilt, the sum of \$24.50 being realized. Before separating a sumptuous lunch was served.

A basket social will be held in the Arbor Park schoolhouse on Friday evening, February 10th, when reports by the delegates to the Calgary convention will be submitted. A full attendance is looked for.

Bracebridge, Ont., Jan. 30.—Residents of Bayville yesterday discovered a ghastly tragedy at the lonely home of William Spence. Wondering at his non-appearance they went to his farm and found his partly consumed body in the ruins of his burned house. Starving horses and cattle indicate that the lone man must have perished in the flames of his burning home some days ago, probably in the terrific storm of last Saturday. The horses were nearly mad with thirst.

HOG WANTED

Yorkshire Boar Wanted.—C. A. Parks, Phone 2410.

Ponoka Engineering Works Machinists, Etc.

We have just installed a new Cylinder Grinding Machine, and are in a good position to re-grind all kinds of Auto Cylinders and fitting with over-size pistons and rings.

When we re-grind Cylinders and fit with De-Luxe pistons, we can guarantee motors to have more power than when new.

Come in and see the latest thing in Cylinder re-grinding. It has got nothing but a mile, as the boys is true and accurate, and it's not possible to re-bore.

When your old bus has lost its pep and can't make the grade on high as it used to, give us a trial and make us prove just what we say.

THE HERALD.

Published at Ponoka, Alberta, every Tuesday.

A New Species?

If Dan, McCowan's article on "Natural History in Rocky Mountain Park," appearing in the Calgary Herald on Saturday, ever reaches the Scottish Highlands there will be something a popping. Describing the Rocky Mountain goat he has this to say—

Their covering is a fine downy wool close to the skin, with a long tangle of hair growing through it. Their wool is short in summer, but long and silky in winter. With their long, diagonal faces and short, drooping beards, they look for all the world like a Scotch piper at the Kirk door collection plate on a wet Sabbath night.

Comments like that will set the heather a-fire. The Herald begs Mr. McCowan to continue his researches and let us have some more enlightenment on this very complex question—give us a treatise on the "Origin of the Species." Darwin has the ape, and now, Mr. McCowan, what say you—the Mountain Goat-Kirk Elder, or vice versa?

CONDITIONS IN THE SOUTH COUNTY

W. R. Smith, of the second-hand store, who donated costs to the relief of the needy in the Battle district in the south county has received a reply to a note which was placed in a pocket of one of the coats, and which gives an idea of conditions. The following is the reply:

"Re: War, Alberta, January 10th, 1922.

"Mr. W. R. Smith, Second-Hand Store, Ponoka, Alberta.

"Dear Sir:—You note in coat pocket at which my wife was the recipient, and that you require to be supplied of the conditions of the south county.

In reply to same, I beg to state that we are in one of the worst districts of the south county. I mean to say the worst district by continued crop failure or crop failures. I farm 900 acres and have not one acre to feed my stock, but have to go miles and haul straw to pull them through the winter.

I commenced to farm here in 1910 which crop turned out to be a failure. In 1911 I had a little wheat, which was frozen in 1912 experienced the same. 1913 was fairly good year. 1914 a little year. 1915 was a fairly good year. 1916 was a good year, but I got laid five times, in 1917 a good crop, but this year with a very small crop, 1918 crop failure, several times, owing that the second time at \$5.00 per bushel, 1919 crop with a very very small crop, and 1920 was a little.

In the last few years the conditions have been the worst money we have had, but of course this is owing to it being so dry. If we had a few wet years I don't think the conditions would be so much distressing.

We wish to thank you for your kindness, and your family the same for the assistance you are giving. We have one of a family and our two sons make a nice lot of food and clothing which is very hard. Two winters ago I lost 10 head of cows and when I had of horses, all work horses, through not being able to feed them. This district requires every assistance that can be given, and anything you people may do to help will be greatly appreciated. Again thanking you all for your kind assistance.

I am,
Truly respectfully,
Yours sincerely,
Jesse Hansen.

WHAT IS AN "AMATEUR?"

The question has often been asked as to whether there is such a human being in existence as an amateur, though, rightly or wrongly, unquestioned, the term is used in sport. Here is the definition of an amateur: Amateur Union of Canada. Have we any such in the Dominion?

"An Amateur is a person who has not competed in any competition for a stake bet, money prize or public or gate receipts, or competed with against a professional for a prize, who has never taught or assisted in the training of an athlete, or acted as a referee in any contest, or received any money or payment in fees or honorarium, while playing as a member of any club, or any money consideration whatever for any services as an athlete, except his actual travelling and expenses, or when he has never entered into any competition under name other than his own, or who has never been guilty of selling or peddling his services." Will somebody get the last line?

Danville, N.Y., Jan. 27.—Thousands of crows, driven from more exposed places by the bitter cold, have formed in a huge black flock on the flat lands between Sargus and Grosvenor. Farmers and motorists report across the lowlands literally covered with the birds, huddled together in the grass and woods to keep from freezing. Many already have died from exposure and lack of food.

New York, Jan. 31.—Mrs. Helen Kieckhefer, 84, widow of Henry Kieckhefer, millionaire paper manufacturer, committed suicide last night, according to Assistant Medical Examiner C. R. R. (Cass), by jumping from the eleventh floor window of her apartment.

M. M. Mecklenburg, eye specialist, will be at the Royal Hotel Ponoka, on Saturday, February 11. He is leaving for the Peace River country, and will be away about three weeks.
